

Option B (Practical Implementation): Phase 2 - Practical implementation and analysis, 25% of the Project	
Group No.:	
Topic Title:	
Design and Implementation of the Solution	
4: Well-designed tool/framework, effectively solving the problem with strong technical execution.	
3: Good design and implementation but may have minor gaps in functionality or alignment.	
1-2: Limited design or functionality with significant gaps in addressing the problem.	
0: Poorly designed or incomplete tool/framework with major issues.	
SCORE	4
Results /Findings /Functional Prototype	
7-6: Well-executed prototype, fully functional with clear documentation.	
4-5: Mostly functional with minor issues or incomplete results.	
1-3: Limited functionality or unclear documentation.	
0: Non-functional or incomplete prototype with no meaningful results.	
SCORE	8
Real World Scenarios Comparison	
4: Strong comparison to real-world scenarios, demonstrating practical effectiveness.	
2-3: Adequate comparison but lacks depth or full relevance to real-world scenarios.	
1: Limited comparison or weak connection to real-world applications.	
0: No meaningful comparison to real-world scenarios.	
SCORE	4
Progress Report: Structure, Clarity, and Completeness	
4: Well-structured, clear, and detailed report that effectively summarizes progress, next steps, and includes appropriate in-text citations and properly formatted references where external sources are used.	
2-3: Mostly complete and organized, with minor gaps in structure, detail, or referencing.	
1: Lacks clarity or structure; missing important details or proper citations.	
0: Poorly structured, incomplete, and lacks supporting references where required.	
SCORE	4
